DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 8-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Taylor.

There is disclosed in Taylor a smoke generator for smoking food items wherein smoke is produced by loading a fuel (saw dust) onto a moving fuel holder 2 which is rotated repeatedly, and heating the fuel unit with a heater 28, the smoke is then lead to a cooking enclosure and applied to the food items.

Allowable Subject Matter

Claims 1-7 are allowed. The prior art fails to disclose or render obvious the use of a vibrator on a fuel housing for producing smoke to be applied to food.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Blanchard, Sigg and Lersten et al. are cited for their disclosure of the state of the art.
